

Webinar on Autonomous Mobile Robots

On the 29th of February @15:30 CET, please join us for a **free webinar** specially designed for Teachers in Automation and Robotics! AMR training course through e-learning for your class completely for free!

Do not miss the chance!

THE WEBINAR

Experts from

- a) APRO Formazione (IT),
- b) Politeknika Txorierrri (ES) and
- c) AFPI (FR) will present:
 - a detailed “how to” use the AMR training course and
 - a set of real life challenges to be used with your students.

Do not miss on the opportunity of upskilling yours and your students' knowledge in Automation and Robotics.

Learn the importance of AMRs (Autonomous Mobile Robots) in industry 5.0.

Partnership

Co-funded by
the European Union

Webinar on Autonomous Mobile Robots

NEXT STEPS

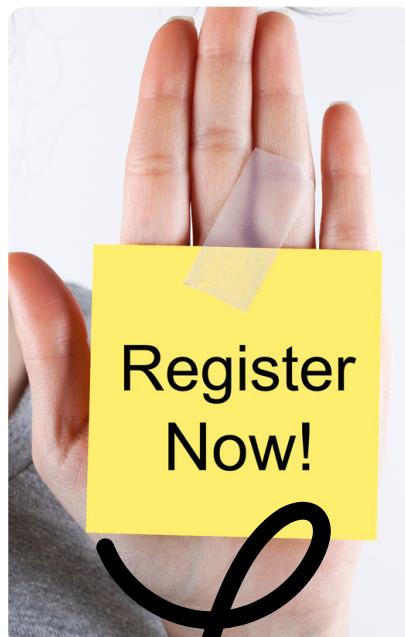

Challenge your students and get them familiar with the needs of today and tomorrow's industry.

Use our course in your own centers for free with the full support and guidance of the ROMOTICS partnership.

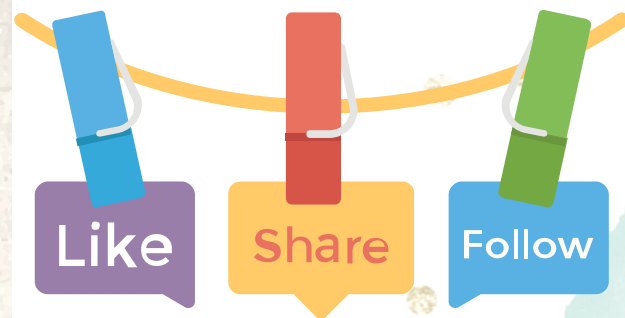

Join the pilot testing which will start in the following weeks.

Do not Forget!

The webinar is totally free to join as is the piloting!
